D-Disintegration First
D-Disintegration First

Ease, take a last glass of wine
Leave your bubble car and old wise
Big boss is upon your skull and bones now
Got to build yourself on your own now
Use all my loving to light your candles in the night

Come here my friend right now
Watch the sea the land and your plow
I keep you there long after midnight
You can leave now if you dare, all right
Use all my loving to light your candles in the night

D-Disintegration First
Dear, simplification thought
Dear, collaboration thought

Take care there is something on my tongue
It's five, ring of the bells ding dong
While the show chosen words and shush
Get out off this golden world of rush
Use all my loving to light your candles in the night

D-Disintegration First x 3

Easy come and easy go is beside you know
Real is real and you can go but it's right right now
Use all my loving to light the candles in your night

- Remember I was in love with you at the first sight
- I was a young kid all right

Disintegration for all of us first
Disintegration for all of us first

Use all my loving to light the candles in your night
