

NO WHITE NO BLACK

There's no white no black
There's for old man countries
But there's no time back

There's no lies, no time
There's no tide
You say it's all right
I won't come back

If you go up to the sea or in the milky
You are so so shooty
Then you are somebody

There's no light
Cause you painted in black
There's no more fight
I feel something has to crack

Nobody knows you are now like a rose
You should get back
Cause I'm alright

Wind of the north say you are guilty and leave grey clouds
Wind of the south, say your are healthy and let the sunshine

I'm now so tired but you see that's alright
Deep is my breathing
Like deep is a mine
I wrote you a letter on the skin of your back
It will end never until it's totally black

For instance blue purple
It rises like a tiny turtle

Wind of the north say you are guilty and leave grey clouds
Wind of the south, say your are healthy and let the sunshine

I mean our love is alright
And foresee we are sending back in time

Wind of the north say you are guilty and leave grey clouds
Wind of the south, say your are healthy and let the sunshine
